

PROJECT OVERVIEW

Paolo Trucco, Fabrizio Amarilli
FONDAZIONE POLITECNICO DI MILANO

3rd Miracle Conference
Resilience

October 30th, 31st and November 1st, 2013

Emerging regional CIP/R policies

- What are the characteristics and the added value of regional CIP/R strategies and programmes?
- How to build on these existing initiatives following EPCIP subsidiarity and complementarity principles?
- How to promote and support regional CIP/R strategies and programmes in the EU?

Multi-level Alignment of Regional Approaches to Critical Infrastructure Resilience by Learning from Experience

Co-financed by the European Union under the CIPS/ISEC Programmes
(HOME/2012/CIPS/AG)

Partners

Scottish Government (SG)

Fondazione Politecnico di Milano (FPM)

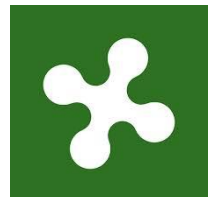

Public Safety and Health Region Kennemerland (VRK)

Risk Governance Solutions S.r.l. (RGS)

Lombardy Region – DG Civil Protection and Security (REGLOM)

Objectives

- To increase **awareness** and knowledge on regional CIP/R strategies
- To stimulate and support the exchange of experiences, to **establish best practices** and related guidelines
- To develop and promote a **multi level framework** to align regional initiatives with national/EU policies

Activities and Expected Results
